

May Garden Share & Care

No upcoming workdays currently are on the calendar

New to the Club and haven't heard about Share & Care?

Garden Share & Care projects last one day (3 - 4 hours) and provide an opportunity to check out and get ideas from other members' yards while showing some GWC love by helping thy neighbor with a few tasks. Share & Care workdays employ micro crews. Projects both extend an invitation into a member's garden and provide an opportunity to help with a project or chores while there. Our mission here isn't to merely form a work crew but to connect with a fellow member and lend a helping hand.

We organize and hold these as the opportunities arise and schedules permit.
Lynn and I are available to discuss further and answer any questions you have.
